Randi Cone

Randi Cone er en serie af accessories til badeværelser. Seriens design tager sit udgangspunkt i en kegle, som skæres i skiver, der kan kombineres til produkter med stor variation i funktion, farve og materiale.

Cone-knagerne tilbydes i to størrelser, og den største kan kombineres med forskellige træskiver, hvilket skaber en dekorativ slå-om-knage. Denne kan bruges til en taske, et halstørklæde eller en bøjle, der bliver friholdt fra væggen, så tøjet på bøjlen præsenterer sig flot.

I serien indgår også en toiletrulleholder og en praktisk ekstrarulleholder, som kan tilpasses knagernes design med udskiftelige endestykker.

Se mere på www.randi.dk

The Randi Cone is a series of bathroom accessories based on the shape of a cone cut into slices. Combining these slices in different ways offers a range of products with great variety in function, colour and material.

The Cone hooks are available in two sizes, and the largest can be combined with different wooden washers, creating a decorative wrap-around coat-hook. This can be used for a bag, a scarf or a hanger, which is kept free from the wall, so that the clothes on the hanger is presented gracefully.

The Randi Cone series also includes a toilet roll holder and a handy spare toilet roll holder - both with the same interchangeable end pieces as the hooks.

C.F. Møller Design

C.F. Møller Design

C.F. Møller Design er en del af C.F. Møller, et af Skandinaviens største og førende arkitektfirmaer. C.F. Møller Design samarbejder med danske og internationale virksomheder om design og udvikling af innovative produkter til huse, deres omgivelser og livet, der leves i dem. Meningsfulde produkter der skaber værdi og sammenhæng.

C.F. Møller Design har sit afsæt i skandinaviske designtraditioner og arbejder med nye produkter baseret på erfaring og inspiration fra vores mange byggerier og indretninger. Vi stræber efter et præcist og enkelt designsprog med fokus på funktion, æstetik og kommunikation. Vi går åbent og ydmygt til opgaven og koncentrerer os om at finde ind til det elementært logiske i et anvendeligt og originalt design med langtidsholdbare kvaliteter til den rigtige pris.

C.F. Møller Design står bag en bred vifte af møbler, byggekomponenter og produkter – se mere på www.cfmoller.com.

C.F. Møller Design is an integral part of C.F. Møller Architects, one of Scandinavia's leading architectural firms. C.F. Møller Design cooperates with Danish and international companies on the design and development of innovative and meaningful products for houses, their surroundings and life within them.

C.F. Møller Design builds on Scandinavian design traditions and is guided by a simple and distinct expression with focus on function, aesthetics and communication. We approach every assignment with an open mind and focus on creating useful and original designs with enduring qualities at the right price.

C.F. Møller Design is responsible for a wide range of interiors, furnishings, building components and products - see more www.cfmoller.com.
