

CASE STUDY

Brehon Hotel, Killarney

Client: The Brehon Hotel

Industry: Hospitality

Location: Killarney, Co. Kerry

Key Products/Services: Omitec OS Slim Smart Locks, OS Access Cloud-Based Software

Outcome: A modern bedroom door lock system with an integrated cloud-based software

Products & Services Delivered by MF Services

MF Services supplied and installed an Omnitec smart locking technology system. These products included:

- Omnitec OS Slim Smart Locks—Featuring Bluetooth and MIFARE Card Functionality.
- OS Access Cloud-Based Software—Remote access control and management.

Why These Products Were Chosen

- The OS Slim Smart Locks offered a visually appealing and modern design & support both card and smartphone access.
- The cloud-based software enables real-time access management. Allows for a flexible and centralised control system.

Key Results

- Increased reliability—There are fewer lock failures and maintenance issues.
- Enhanced guest experience— Quick, keyless room entry via smartphone or card.
- Efficient staff operations—Better access control for staff through cloud-based software.
- High-quality finish – Sleek, aesthetic design matching the hotel's interior.

Project Outcome

As a long-standing client, The Brehon Hotel trusted MF Services to deliver a high-quality, cutting-edge hotel lock and access control system. The project reflects our commitment to excellence and maintaining long-term client relationships. At MF Services, we put our name to every project we take on, ensuring we meet our clients' needs and continue to deliver value long after installation.
